

Automatic screen printing press

M&R Global's Copperhead Jumbo Oval sets the standard for oval format screen printing presses. With selectable printhead locations. It can be tailored to almost any production requirement, floor layout or shop size.

Jumbo Oval's 16-station base module can be expanded in 4-station increments to create 16, 20, 24, 28, 32, 36, 40, 44, 48, 52 and 56-station configurations. Other than the three pallets at each end of the press, there are no restrictions on printhead placement, so Jumbo Oval's layout can be tailored to almost any production requirement.

A high-quality, smooth-operating servo-drive indexer provides fast & accurate indexing making Jumbo Oval ideal for cut-piece and all-over print garments.

Lightweight Aluminum pallets with soft top rubber pads avoid excess overheating after flashing, which is one of the key features for printers using water base and discharge inks. Squeegee pressure equalizer system ensures uniform ink deposit to achieve consistency in color reproduction. With electric printheads, tool-free squeegee/floodbar angle adjustments, pneumatic frame locks and independent squeegee/-flood speeds provide operators with all the time-saving features needed for quick setups. The Copperhead Jumbo Oval is compatible with Tri-Loc I Series which further minimizes setup times and maximizes run times and productivity.

FEATURES

- Available up to 56 Station.
- Maximum Image Size: 70 x 100 cm (28" x 40")
- Standard Pallet Size: 75 x 122 cm (30" x 48")
- Standard Front And Rear Locking Micro-Registration
- Standard Pneumatic Frame Locks
- High-resolution Touchscreen Control Panel With Easy-to-use, Icon-based Logic And Built-in Tutorial Screens

¹ Use uninterruptible power supply (UPS) to safeguard machine from voltage fluctuation out of main supply. If incoming voltage differs from the voltage(s) listed in the brochure, calculate amperage accordingly. Contact M&R Global/ your nearest dealer for total amperage in case of using built-in flash sockets.
